Scan to download the Smartflash app!

SMART FLASH

LCD with Wifi
(Livfast SMARTFLASH App)

Smart Charging Technology

- Uses the most ideal charging method to charge the battery by reading battery's health and battery type
- Technology prevents from overcharging and helps in charging faster which enhances the battery life

Higher Load Carrying Capacity

- It allows the inverter to support an extensive range of appliances
- Provides wide margin of safety against extra load which makes the inverter more reliable

Smart Power Cut Predictor

- Predicts daily probable power cut in hours, based on past power cut analysis
- Plan your day, hassle free without any interruptions

Smart Connectivity with SMART FLASH App

- Access all our app features like running load indicator, estimated backup-time, quick charge, ON/OFF, and many more
- "Livfast SMARTFLASH" app is available on android & IOS device

Available estimated backup time

- Stay powered up with our inverter's backup time indicator
- Feature ensures peace of mind

Running Load Indicator

- Stay Informed, Stay efficient: monitor load usage with ease
- Inverter shows the running load% of the actual capacity

Battery Water Level Indicator

- The water level indicator is your battery's friendly reminder: "Time for water top-up!"
- Helps in maintaining a healthy battery life

BLAZE FLASH

With LCD Display

Smart Charging Technology

- Uses the most ideal charging method to charge the battery by reading battery's health and battery type
- Technology prevents from overcharging and helps in charging faster which enhances the battery life

Higher Load Carrying Capacity

- It allows the inverter to support an extensive range of appliances
- Provides wide margin of safety against extra load which makes the inverter more reliable

Smart Power Cut Predictor

- Predicts daily probable power cut in hours, based on past power cut analysis
- Plan your day, hassle free without any interruptions

Available estimated backup time

- Stay powered up with our inverter's backup time indicator
- Feature ensures peace of mind

Running Load Indicator

- Stay Informed, Stay efficient: monitor load usage with ease
- Inverter shows the running load% of the actual capacity

User Friendly LCD DISPLAY

- Ease of use, moved the switch operations from inverter's rear-end to front
- From LCD panel, simply select the desired modes with the help of up and down keys

SAR GROUP EXCELLENCE

SINE WAVE 

SQUARE WAVE 

FLASHCHARGE+ **BOLT+**

SINE WAVE INVERTERS | SQUARE WAVE INVERTERS

25% Faster Charge

- Takes 25% lesser time to charge
- Ensures that the battery stays charged at all times.

Higher Load Carrying Capacity

- It allows the inverter to support an extensive range of appliances
- Provides wide margin of safety against extra load which makes the inverter more reliable

Low Voltage Performance

- Faster charging at low voltages, even as low as 90V.
- Ideal for areas with low voltage issues.

Battery Gravity Builder

- Maintains better battery gravity for higher backup
- Ideal for areas with long power cuts

4 Type Battery Selector Switch

- Unique charging for each battery type.
- Ensures that your battery lasts longer.

Type	Model No.	VA Rating	DC Rating	Warranty
SMART RANGE				
Sine wave	Blaze Flash 1125+	900VA	12V	3 Years
	Smart Flash 1125+	900VA	12V	3 Years
FLASHCHARGE+				
Sine wave	FCS925+	700VA	12V	3 Years
	FCS1025+	800VA	12V	3 Years
	FCS1125+	900VA	12V	3 Years
	FCS1475+	1125VA	12V	3 Years
	FCS1575+	1250VA	12V	3 Years
	FCS1625	1500VA	12V	3 Years
	FCS1725	1500VA	24V	3 Years
	FCS2375XL	2000VA	24V	3 Years
